

## Project Goal:

To provide an integrated e-commerce platform for selling electronic devices such as mobiles, laptops, and monitors, making it easier for customers to find, compare, and purchase products at competitive prices.

## Impact on Society/Industry:

Enhances the shopping experience with a reliable and user-friendly platform.

Increases tech awareness through reviews and comparisons.

Supports digital transformation in e-commerce and creates new job opportunities.

Boosts competition and product quality by offering diverse brands at competitive prices.
